

Data Summary:

Permit holder: Eurasian Minerals Sweden AB (Brattasen 1-5, Now EMX Scandinavia AB) & EMX Norwegian Services AS (Brattasen 6-7)

Project Name: Brattåsen 1-7

Project Overview:

Performed Work:

5 field locations have been visited at which 5 samples have been collected during a field reconnaissance campaign. During the campaign it was noted that there is a high abundance of cabins and houses which seem to be a challenging area to work in. Also, the attitude of the Arendal municipality towards mining was at best negative – if not almost hostile.
