The figure is a topographic profile map of the A/S BLEIKVASSLI GRUBER. The map is plotted on a grid with a horizontal axis representing distance and a vertical axis representing elevation (NIVA) in meters. The vertical axis ranges from 180 to 420 meters, with major grid lines every 20 meters. The horizontal axis is marked with contour lines at 100V, 200V, and 300V. A profile line is drawn across the top of the map, showing the elevation of the terrain. The profile line starts at approximately 410 meters on the left, rises to a peak of about 420 meters, and then descends to about 350 meters on the right. Various geological features are marked on the map, including:
