The figure is a geological map plotted on a grid. The vertical axis is labeled with '300 V' at the top and '700 N', '600 N', '500 N', and '400 N' along the bottom. The horizontal axis is labeled with '300 V' on the right and '700 N', '600 N', '500 N', and '400 N' on the left. A prominent, irregular boundary line winds across the map, starting near the top left, moving right, then down and left, and finally up and right. This line is labeled with '240' in two locations. To the right of this line, there are two points labeled 'N.14' and 'N.15'. Further to the right, there is a small, irregular shape labeled 'C.1'. Several 'X' marks are scattered across the map, including one near the top center, one near the top right, one near the bottom left, one near the bottom center, and one near the bottom right. A small '06' is written in the top left corner of the map area.
