Noll
30 fm level
Shear which seems to be continuation of main ore zone at the end of stope.
Breccia in end sparse sulphides
bedding?
Smooth wall Shear?
Inaccessible drive in wall of vein
Pile of loose muck
Winze on vein
Stope on Labouchères vertical above level
mudstone much jointed & slipped.
jts.
B E L O W
Vertical winze holing into old stope. f.w. 7.60 m below xcut
69 cm band pink & white dolomite in the mudstone
S T O P E
double slip plane & down-throw 50 cm to N
Mudstone
Banded and broken dol. & mudstone
Dolomite
Winze into rather flat stope
Very little evidence for continuation of vein
Stope 2-3 m
slip? plane
jointed mudstone
bedding in mudstone
45 cm dolomitic band
Very marked, smooth slip? plane
30 cm banded pink & white dol. mudstone on h.g.
X cut N ex Monks #
Driven N ex X cut E
Drift in solid pink dolomite. Some qtz veins
noticeable plane in dolomite
Dolomite
Mudstone
Soft grey clay from overlying mudstone filling large irreg. jt in dol. width up to 50 cm.
Jt. does not extend into overlying mudstone.
X cut E ex Monks #
66 cm dolomitic band in mudstone
Smooth vert. plane Slickensides 270° at 50
well marked jts.
Sloped some distance up
Slip plane
Mudston.
Bedding? in dol
hard red "jasper"
orange dol.
Clay filled jt. up to 10 cm.
Solid pink dolomite with white quartz veins 2-5 cm wide dips 60-70 cm.
normal contact
Mudstone
irreg. plane slickens 40° at 130°
Dolomite
Room connects to Monk's # ca 6 m above.
Rusty fissure cavernous.
Boarded winze or stope below
X cut S
X cut W ex Monks #
marked plane forms f.w. of winze lower down.
Winze 240° at 70° 14 m. inc to water
White xst dolom.
red dolom.
vert. raise in roof
vert. jt. with qtz water percolating
clay planes
"Jasper"? Dark red veined dolomite
White dolom.
"jasper" brecc. red dolom.
marked plane w. limonitic clay
Veined white and pink dol. exc. to about 4 m above level. Sparse cc impreg. in east side
rusty fissure 5 cm. grey clay
marked wall with vert. slickens
